

# Want to test your skills, gain valuable experience and have fun doing it?

Since midnight, a clock has lost four minutes every hour. It stops at 3.52pm. What is the correct time?

## Who are we?

Watson Wyatt is the trusted business partner to the world's leading organisations on people and financial issues. In Australia, we are a leader in providing superannuation consulting and actuarial services, investment consulting, human capital consulting and technology solutions.

Throughout the world, we have 7,700 associates across 100 cities—from Melbourne to Mexico City, London to LA, Dubai to Düsseldorf. We are global in the true sense of the word, operating full-service offices worldwide and providing the deepest expertise in the business.

The historic strength of our Actuarial & Employee Benefits Consulting practice has been the foundation on which the broader Watson Wyatt company has been built. Like the rest of our business the Actuarial & Employee Benefits Consulting practice continues to evolve and offers the opportunity to pursue an actuarial career path working on one of the few government mandated benefits—superannuation.

Our Investment Consulting practice provides a diverse range of services from partnering clients to set up investment strategies, managing risk and selecting investment managers.

## What opportunities does Watson Wyatt offer students and graduates?

Opportunities for students and graduates focus on the following practice areas:

- **Actuarial & Employee Benefits Consulting**—targeting actuarial studies, mathematics, statistics and science.
- **Investment Consulting**—targeting finance, business, commerce, actuarial studies and economics.

## Vacation Employment

During December, January and February, we offer vacation employment to students in their penultimate year of study. What a great way to test your skills and gain valuable experience of a collaborative, fun and supportive working environment! And, better still, many students who participate in our vacation program join Watson Wyatt permanently at the completion of their degree. Information regarding our 2009/10 vacation program will be available in June 2009.

## Graduate Program

We have a high-performance culture, and we do place emphasis on academic achievements. But we recognise that academic results are just one measure of a person's capabilities. So, if you can demonstrate some of the skills that our consultants draw upon daily, such as team work, communication, analysis and problem solving skills combined with attention to detail and the desire to exceed client expectations, you may be just what we have in mind.

## Is this what you've got in mind?

The rate of change in today's markets brings new meaning to the Chinese proverb "may you live in interesting times". We offer exciting opportunities—our work is interesting and so are our people.

To find out more, visit our website to learn about the experiences of some of our recent graduates and find out more about life at Watson Wyatt. Information regarding vacation and future graduate employment can also be found on our website at [watsonwyatt.com.au](http://watsonwyatt.com.au)
